EXPERIENCE

Security Analyst 10/17–02/18
Mylan Pharmaceuticals (Contractor: G4S Comp/Invest) Morgantown, WV

Monitors shipments and provides logistical support for high-value loads remotely, including location tracking and crisis management. Supports executive members, staff personnel, and global travelers with country briefs, event monitoring, and specific executive protection logistics. Provides insight and analysis on economic, political, and local unrest in areas of global corporate interest. Contributes to weekly analysis briefs, urgent daily/breaking alerts, and tactical monitoring.

(cont'd)

Program Analyst

7/16–10/17

US Federal Bureau of Investigation (Contractor: GAP Solutions) Clarksburg, WV

Program Analyst for the FBI NICS Division, in support of the National Instant Criminal Check System for purchasing of firearms from FFLs and explosives permits. Accesses a wide variety of databases and provides reports to make suggestions towards the determination of legal eligibility for firearms purchases.

Skills:

Background investigation, report writing, adhering to Federal and State standards, and concatenating information for analysis from disparate sources.

NCIC, NGI, Interstate Identification Index, Immigration Customs Enforcement records, legal instruments, WestLaw,

Program Analyst (Statistics)

1/15–7/16

US Navy (Contractor: CTIRMS)

Dallas, TX

Statistician for the US Navy Recruiting District Dallas, including gains and losses, awards, and all other needed metrics. Accesses and uses data from several databases, compiles and manages information in Excel spreadsheets and Access databases. Interacts with many departments and sites, fulfilling analysis and records keeping requirements in accord with all legal and policy-required structures. Assists in Officer Processing and acts as MEPS liaison, also facilitates and produces award letters and information.

Skills:

Excel, Access, PrideMod, WebRTools, MEPStrack, MEPS scheduling, goaling, awards.

Achievements:

Promoted from General Clerk to Program Analyst, created training manuals for encryption standards across all of NRD Dallas and Statistician's Manual, now used at multiple US Navy sites. Improved processes, incl. for Shipping/Accession goals by automation with checks; Officer Statistics integration; Nuke, FTCU, and Warrior Challenge recruiting; and failures to DEP tracking.

Security Police Officer and Union Steward

9/13 – 1/15

NASA (Contractor: Alutiiq)

Fairmont, WV

Responsible for law enforcement of Title 51 USC, maintaining site sterility, and ensuring personnel and site security. Selected to be Union Steward, thereby gaining familiarity with CBAs and operational needs management.

Skills:

Familiar with Lenel monitoring systems and multi-camera observation. Produced camera field of view maps to improve SPO rounds. Implemented Random Anti-terrorism Measures, and completed many training modules to facilitate job performance.

Achievements:

Received several letters of recognition from contract chain of command, Officer of the Quarter, and two awards from NASA for recognition of service.
